Participants must always set up, equip and maintain their stands in a manner that does not prejudice the appearance or visibility of nearby stands, or cause any damage to other participants.

Stands must not exceed the allocated areas, indicated by paint or chalk lines.

Since exhibition areas do not have partitions, every Participant must install partitions at their own expense to separate their stand from neighbouring participants.

In particular, in the event of perimeter walls exceeding the height of adjacent stands' walls, the former must have a perfect neutral colour finish.

Stands' walls must always be free-standing

In large exhibition areas that include passageways, indicated on the hall floor plan, no stand fittings may obstruct these aisles.

Island stands (with four open sides) and peninsula stands (three open sides), must limit the use of perimeter partitions.

Construction of two-storey stands is possible on condition that the second storey has an area of no more than 100 sq.m. and height doesn't exceed the limits indicated in letter C) point 1, 2, 3 and 4.

All double-sided graphics must be positioned at a minimum distance of 2 metres from boundaries with adjacent stands.

The stand must also show the name of the participating company.

B) Non-standard fittings

In case of non-standard type standfitting, Participants must send Organizing Secretariat Stand fitters' Statement of Correct Assembly and a Structural Adequacy Certificate.

All fittings featuring specific characteristics as per chapter 2 FITTINGS at paragraph "Definition of type of stand fittings and approval procedure" of Rimini Expo Centre Technical Rules and Regulations always available on

http://my.enada.it/upload_ianus/modulistica/ENR/regolamento_teceng.pdf

are considered "non-standard".

2- Sector two: maximum height 5 metres.

3- Sector three: maximum height 6 metres.

Graphic elements and suspended structures must be assembled on the floor and raised to the appropriate height with motorized or manual lifting devices; same height restrictions as above.

1.2 STAND DESIGN APPROVAL

All stand plans must be approved by the Operations Department and submitted at least 60 days prior to the opening of the Exhibition (August 08th 2019).

Organizing Secretariat reserves the right to consent, at its own judgement, isle or penisle stand plans with one or more sides totally walled up.

Organizing Secretariat reserves the right to consent, at its own judgement, two-storey stand plans exceeding height and surface indicated in previous paragraph only if the firm has complied with safety rules as per Interministerial Public Health-Job Decree of July 22nd 2014

Organizing Secretariat reserves the right to consent, at its own judgement, stand plans featuring size and technical traits different from rules and limits indicated at letters A) B) and C) on condition that they do not prejudice the appearance or visibility of nearby stands.

If a participant does not present any stand plan or does not set up its space as per conditions indicated at letters A) B) and C), it will be obliged to purchase a pre-assembled stand arranged by the Organizing Secretariat itself

In the event of Participants being in default of any of the above, The Organizing Secretariat reserves the right to refuse participation in the event and claim, by way of damages, payment for the full amount for the exhibition area.

Organizing Secretariat reserves the right to insist upon modification or removal of standfitting carried out without prior approval or not compliant with the approved design.

Participants are liable for all installation and standfitting and they expressly release SAPAR and Italian Exhibition Group S.p.A. of all obligations for any damage caused to themselves or others by installation errors attributable to incorrect calculations or imperfect construction.

For all non-standard standfitting, it is compulsory to submit the technical documentation required by the Expo Centre's Technical Regulations for each specific case. Generally speaking, this is a technical design report, submitted within and no later than 5 days before the start of set-up and standfitting work and a structural adequacy certificate, signed and stamped by an authorized technician (architect/engineer, member of the appropriate association), the original of which must be consigned within and no later than 24 hours before the start of the exhibition.

If a Participant has not submitted the aforementioned documents within the set time, or has sent incomplete or inadequate certification, the expo centre's Operations Department will proceed directly, with staff commissioned by the Department, and the cost of certification, including any applicable surcharge, will be changed to the Participant in whose name the stand has been rented.

Art. 2 - ACCESS TO THE EXPO CENTRE – MOVE-IN – SET-UP

In addition to the indications of the Consolidated Act of Public Safety Laws (TULPS), for further security, access to the expo centre is forbidden to any person in possession of offensive weapons (art. 30 TULPS), as well as any person in possession of toy weapons, stunning devices, explosive and incendiary substances/devices and toxic chemical substances. Exceptions may be granted at the sole discretion of the Organizing Secretariat.

It must be remembered that, in the event of failure to pay the remainder, i.e. in the case foreseen by Chapter I Art. 3 letters D) and E), Organizing Secretariat has the right to not permit stand set-up and fitting to either the participating company or any stand fitter appointed by it.

In that case the Organizing Secretariat, as well as withholding any deposit already paid, and claiming the entire sum agreed on for participation, as indicated in the countersigned proposal of participation, will consider the exhibit area free and it may be allocated to others.

From six months prior to the expo, the hours, official dates and other technical instructions for move-in, set-up and dismantling, which participants undertake to observe via the undersigning of these rules and regulations, can be consulted on the Web site of the Expo in the "EXHIBIT" section.

Participants confirm their acceptance of any changes that, for logistic reasons, Italian Exhibition Group SpA may make to the aforementioned instructions via updates on the Web site.

Any remaining work or modification after evening closing may only be carried out before morning opening, following Organizing Secretariat authorisation and with a special security service charged to the Participant (to be ordered in the reserved area).

Requests for this service must be received by SATE (Exhibitor Technical Assistance Service) no later than noon on the day the authorisation is required. Extensions of working hours on the last installation day must be approved by the Operations Department and will only be granted in exceptional cases. The costs of these services are specified in the "services" section in the reserved area.

Participants who need more fitting days may request them in the reserved area (the service is available on payment).

The pre-fitting timetable will be available from six months before the exhibition on the official website at in the "EXHIBIT" section; Italian Exhibition Group reserves the right to change or modify hours or days for technical reasons, modifications will be promptly communicated at the same URL.

It must also be noted that during set-up and standfitting days the use of cranes or truck-mounted cranes for unloading goods in the expo halls is prohibited; these vehicles can be used in a previous period (precise dates will be announced by Organizing Secretariat in the "reserved area" on the exhibition's Web site).

Modifications to or change of exhibition areas must be authorised by the Organizing Secretariat and carried out at the applicant's expense.

Participants who have not occupied their area or started standfitting work by noon on the eve of the inauguration will be considered to have withdrawn to all intents and purposes, as per Cap. I art. 5 point 5

Art. 3 – CONTRACTORS and PROVISION OF SERVICES

For stand fitting work, including the rental of any material required for this purpose, Italian Exhibition Group S.p.A. reserves the right to appoint one or more companies as "authorized contractors", whose names will be opportunely communicated to participants, along with the rates for their services.

These services are regulated and invoiced, but not provided directly, by Italian Exhibition Group S.p.A., therefore SAPAR and Italian Exhibition Group S.p.A. do not assume any responsibility regarding any inefficiency or problems with the provision of said services.

The services can be ordered by means of an e-commerce platform accessible with a password, which is sent by Italian Exhibition Group S.p.A. in the months prior to the expo. It must be noted that, when purchasing or ordering a service, the general conditions for their provision (always attached with service details) are intended as being accepted.

It must be remembered that the conditions of provision may be subject to variation, due to the technical nature of the individual service offered.

Payment of the aforementioned services is disciplined as per Chap. II Part 1 art 3 of the Exhibition's General Rules and Regulations

Any complaints regarding the services and/or concerning their invoicing, will only be considered by the Organizing Secretariat if sent to them in writing within and no later than the end of the exhibition.

Any complaints made after the end of the exhibition will not be taken into consideration.

It is forbidden to use stands' plumbing system or that of the expo centre's public toilets to dispose of food and solid, liquid or semi-liquid waste, toxic, corrosive or pollutant substances.

Any damage must be compensated and exhibited products will be held as security. Management has the right to claim against this material without prejudice to other forms of compensation.

4.2 During the entire set-up and standfitting period, Participants are required to keep aisles and passageways clear of all material, waste and equipment, in order to ensure free circulation of vehicles and people.

All waste material must be placed on the appropriate containers in the aisles.
